1. ‘XOME’ AND ‘YOME’!

https://youtu.be/vgQKa0tJ7RI

Words ‘female’ and ‘woman’ are coined from ‘male’ and ‘man’! Why
When ways for creation of independent words, exist aplenty?
Why then choose the nasty way of coining word for the fair sex!
Want to degrade, keep them always dependent of the UNFAIR sex!
When ENGLISH can change ‘Chairman’ to ‘Chairperson’ to appease a few
What hangs on preventing creation of words independent anew?
Why can’t when there exist words scientific that decides the two sexes
Word ‘XX Chromosome’ and word ‘XY Chromosome’? It really vexes!
Wonderful aren’t the words ‘XOME’ for the ‘girl’ and ‘YOME’ for the ‘boy’
When we leave the word ‘Man’ to mean only ‘the human community’!
Wake up lovers of ‘English’, take the pledge you will use only indiscriminate
Word ‘XOME’ hereafter to represent the fair sex. Why can’t we expedite?!

((((((0))))))

2. REVELATION! ULTIMATE!

https://youtu.be/KRUy7oHSRUs

(XOME : Bias-less independent scientific word for the fair sex coined from, x-chromosome.

YOME : Scientific word, for the opposite of the word XOME, coined from, y-chromosome.)

OHM…… OHM……. OHM……..

Didn’t the then, THE SENCE OHM, divinely branch into three?!
All the three are YOMES, not even as the guardian, a single XOME!
At least for names-sake, why didn’t even a single one, turned out to be a XOME?! Tell!

In a single stroke, didn’t even The God; dump the whole of The XOME?! Tell!
To refine us, The God didn’t send The Prophetess! Isn’t it so?!
To save us, The God didn’t send God’s own Daughter! Isn’t it too so?!

The then, why couldn’t the creation, of the sex XOME, had been done first?! Tell!
After that, with a bone of The XOME, wasn’t it sufficient, the creation of The YOME?!
In case that, it wouldn’t have been like today, possible to degrade The XOME! Isn’t it so?!

If thought in detail full, didn’t that fact, actuality got revealed, beyond doubt -
That the authors of all BOOKS RELIGIOUS are, sex-equality-animosity YOMES!?
Didn’t the contents of these writings, declare it out plainly!? Tell, tell and tell!

Will you not together, think which religion, procreated by XOME, exists in this world?!
There in this world, exists not at all, any XOME-created religion! All religions possess,
Flounder, same! Should succeed, without giving XOME, equality least! Tell a way! Tell!

XOME'S remorse, not at all that, daily didn't it kill and kill, without really the real killing?! Isn't not feeling sorry, that not even a single one of the ten-incarnations, God took yore - Never turned out to be a XOME?! Declare, we need both, everywhere! Even the XOME!!

XOME…….. XOME…….. XOME……

3. HONORING THE INFANT!

https://youtu.be/x4sPqLmJUDI

Infant, not a ball in hands of parents
To play according to their talents!
They are born independent of them:
Parents do have no right to mould them
Into any form, fulfilling their whims
And fancies, faiths and all the dreams!
Our library embraced Bharatham, Koran,
Bible, Ramayana, Geetha and so on it ran!
Children were free to take book any
And read any book, any time, from many!
Honoring their individuality is a must!
We the couple claim, we are the first
In this world to honor the individuality
Of the innocent infant in all actuality!
We never injected into the tender heart
Anything that would have in future hurt
Them as they grow up into an adult!
And really great wonder was result!
Let them choose what they want, when
Ripe enough to think themselves and even
Select the good, reject the bad, judiciously!
Let them adore what they want, lavishly!
We in our life never had ridiculed any
But, having been teachers, praised many!
We don't consider criticism as ridicule,
But, welcome criticisms all, as a rule!
Whether you like or not, our philosophy,
At least a few may accept our philosophy!
Till Man accepts this philosophy, there will
Continue fighting each other, at their will!

4. BIRTH OF GOD!

https://youtu.be/JYkCoRwQ3sE

From time immemorial, since on earth,
Man came into existence - not by birth -
He had been, he had, and he is under
Irresistible pressures, like thunder,
Lightning, forest-fires, floods, all natural
Calamities, everywhere, all fatal!
Always he had to be on the alert
He couldn't have had any kind of comfort.

Drowning, in front of his eyes, made him fear
OCEAN, that took away forever, his dear!
One, burning in accidental forest-fire,
None dear near, horrible pain, couldn't endure
Again now here, FIRE kindled in him fear
Severe sunstroke sunk skin, stinging, stunning
And insatiable thirst, throat thrusting
Made the man fear the SUN, so convincing!
Biting cold, freezing blood, survival dim:
WIND's might felling trees top-rooted, killing him
And NATURE's cruelties did same, feared both- whim!
Gradually, fear turned adoration
Soon transformed, they into fat devotion
Personified Sun, Ocean, Earth, Fire, Winds,
This led God's evolution that still stands!

If Fear, God's father; then Love, God's mother!
COW gives milk; EARTH, food, fruits and things other!
Benefits drawn, love's token, made Goddess mother!

Running round lions, roaming hungry, roaring
And, striking flying monsters, hovering
Beasts brutal, pouncing over any time-
Too, frightened; so, Devil Gods born in fame!

5. OH! BLUNDER-WONDER, SURRENDER!

https://youtu.be/LGd9aWexf1M

Prayer houses aplenty
In the name of true nihility!
Ocean being part of world, impossible under it to hold -
In way any, the Full world! Idea might have been sold!
God never took incarnation into a pig,
As none hid world as ill-imagined! It's a rig!
Author of Book Religious, knew never,
He was scribbling most horrible error!
Oh! Blunder-wonder, surrender!
Thou succeeded, fool only the Tender!
Religions' contents may thunder!
Aghast! Man may stand in wonder!
Themes and stories embedded in Religion may seem fonder!
Prayer Houses and festivals: great crowd attraction sounder!
Man meek and weak may, forever, surrender!
Religion-exploiters will surely, plunder!
Religion-lunatic may, engage even in murder!
Religions too, would one day die, without any to hinder!
But, Man should live, forever! Allow Him, to live, in splendor!
Religion! Just creative imagination of founder!
Believing the story told in them, a great blunder!
Author trespassing into wilderness is given, herein under!
Statement foolish: 'Keeping the whole; in its own part that's slender.'!
Not, patent of Religion particular any, staging any blunder!
It's common to Religions all: here or there, they flounder!
There is one Man or Men many, behind every Religion, yonder!
Religion creation and orchestration, really the greatest money finder!
('God hadn't ever taken incarnation into pig!' That's the reminder!)
Isn't it till time reached, for Man, to over and over, ponder?!
What reply, Intellectuals and Religious Pedagogues, have to render?!
(((((0)))))

6. RELIGION!
VANITY OR SANCTITY!

https://youtu.be/VENUdX_CZ9M

Pity, pity the humanity-majority!
Man, well known for culpability,
Adore religion, for its curiosity!
Blind believers, is in no scarcity!
They are all, in great ambiguity!
No fear at all, of any impossibility!
So, they do pray, to the Almighty!
But, nil reply, from the Naughty!
Is it because, ways are faulty?!
Or, is it to show, Own mighty?!
Is your existence, really reality?!
Or, misconception, of Thy royalty!
Praying something is really frivolity!
Exists nothing live, to hear in entirety!
In ways different, in activity -
Man tries to please, the Divinity!
Among humanity, no unanimity!
They never mind, eventuality!
News of man's, vulnerability -
Spread, like rumors' sincerity!
That prompts plunderers unity!
Priesthood's famous secret atrocity
Nullifies religion's supposed sanctity!
Concerned only in own prosperity,
Interested not, keeping up integrity!
Believers, haughty for their plurality!
But, Man many, keep up neutrality!
Fifteen percent increase, in actuality!
As, science progress with quick intensity,
So do crumble superstitious mentality!
Broker unwanted, for learning morality!
Science would teach it with generosity!

7. RELIGIONS, ILL-TREAT, SCORN AND AFFLICT GOD!

https://youtu.be/9xPz8kYtf-k

What shortfall is there in offerings to God?
We the devotees do question scandal spreaders!

Religions many, build house and donate to God to live!
Houses small to even big palaces, not only in stone,
But they are even in gold, with stone precious too affixed!
To get light, oil lamp or candle lighted, given all nights, daily!
Rice prepared and served; flowers, fruits given,
Puddings, porridges, sweets different kinds extra!
Silk too to dress, though killing living pupa numerous!
Give bath, in bacteria dancing liquids different kinds!
Praise; make hear sound of shots, put to sleep singing song!
Don't you know, convenience to take bath after menses too
Made and given, if they happen to be Gods XOME?!

Assertions may be true, but there exist problems some, great!

Why these religions which utter, everything is created by God,
Pretending to be theirs own, present flowers, fruits to Creator
Himself, the same flowers and fruits unhesitatingly! Ridiculous!
It may taken for granted, God don't know pudding preparations!
Without dish, isn't it cruelty horrible, forcing Him to eat as it exist
Without not even a single dish even to knead the just boiled rice?!
Are spaces for sitting, taking bath, sleeping and eating food
Quite sufficient in places of worship, for God the omnipotent?!
If any food is eaten, excrement evacuation and urination inevitable!
Which places of worship do have facility for that paramount necessity?!
Isn't it terrible cruelty, these religions which provides all other pleasures
And conveniences to God, do, without creating facility for urge natural?!
Manufacturers of religion forgot it, not at all thought even a little about it!
Might have even thought would fulfill the urge at open exterior place!
But the epoch has changed, for that, exterior open places now very rare!
This bliss less state of affairs continuing as it is, is really very pain suffering!
Matter, too important, very quick decision highly necessary dear friends!
You, all world religious veterans, it's now too late, at least now you all arise!
You all unite! Let us join into a single force, fight against this senselessness!
Let rocket on an all world basis, separate facilities at all sanctum sanctorum,
Facilities for God the omniscient, for excrement evacuation and urination!
Either stop serving food items to Deity in temples, or provide toilet facility too!
It need not be the usual size, according to size of Deity, it can be miniature too!
Man showy, superstitious, would donate ornaments gold, even crowns to God!
But, not money any, for meeting basic needs, a toilet exclusively for the God!

How, Crooks who invented tricks to cheat Man, missed to provide a toilet?!

8. THE GREATEST BLUNDERS ON EARTH!

https://youtu.be/aBgl-6Jn5Zo

If asked 'What's the greatest blunder on the earth?'
It is nothing but, the creation of horoscope at birth!
Does the mental agony or cheer it brings out, worth -
Thinking of hurly burly events that may come forth?!
A name and symbols are given to particular cluster of stars!
Only 12 clusters then known were fortunate to get the farce!
Baby born between March 21 and April 20, gets ARIES
And that born between April 21 and May 20 gets TAURUS!
So on it goes, Gemini, Cancer, Leo, Virgo, Libra, Scorpio,
Sagittarius, Capricorn, Aquarius and Pisces, in toto!
Awarding clusters of stars, influence Man, has no clarity!
For arguments sake even if it is admitted that gravity
And magnetism does have influence on Man's health
What they have to do with Man's fortune and wealth?!
More than 150 globular clusters are known in Milky Way -
Galaxy, abode of Man: but, why only 12 clusters have a say?!
If closest cluster, even though 4.25 light years away, influences -
The fortune and wealth of Man, really the wonder enhances!
Not at all possible, ever, predict the future of any individual!
It isn't something prepared in advance, to happen, sequel!
Astrology is rejected as pseudoscience, by scientific community!
Explanatory power nil, to describe universe, so no scientific validity!
As past, present, future knowing astrologer, cheats Man incessantly:
Horoscope manufacturing, should be banned immediately?!

Numbers are invented by Man! Considering particular number
Unlucky, is nothing but a kind of phobia and is a mega blunder!
Black cat crossing athwart your way, can't thwart your venture!
Lizard tunes or its falling, gives no indication of the future!
Sorcery can't solve your problems, face them courageously!
Incantation incapacitates innumerable Innocents, intensely!
Prophesying, by manipulation of cowries, is criminal guilt!
On the vying vulnerability of The Superstitious, it is built!
Claim, lines on palms are indicative of fortune, health, wealth,
Past, present, future, education and employment, is stealth!

9. WHY MAN PRAY TO GOD?! REVERE HIM?!

https://youtu.be/TKoBrYPkGRs

Parents keep up their vigil, always surveying the needs -
Of the progeny: give bath, put to sleep and in time, feeds.
Check their health, do everything to keep them happy:
Not, as progeny prayed parents, but urge of natural duty!
Religions all, in voice unison declare, God created Man!
Tries to substantiate it, in all the possible ways: it can!
So, in reality, what's the relation between Man and God?
Isn't God, both mother and father of Man! Give the nod!
God is the parents of Man. Isn't it, the duty of The Parent -
To look-after their children?! Isn't it a duty sacred inherent?!
Perennial, isn't the relationship between Man and God?
To look after Man, as parents do, isn't then solemn duty of God?

Why Man serve flowers and fruits created by Him, back to Him?!
Aren't the system intended to fool Man superstitious, a whim?!
Well known fact it is; once, God enjoyed sacrifice of Man or animal!
Now, is God satisfied with sacrifice of squash or lemon, vegetable?!
Wonderful isn't that Man, by invention of gun-powder, made lots
Of deities of large number of temples, addicts to sounds of shots?!
Why should Man pray God, the system invented by The Fraud?!
Revering and praying: isn't it equivalent to rebuking The Lord?!
What's the necessity of the prayer houses, for Man to pray?!
God is omnipresent, omniscient, omnipotent for Man to bray!
Aren't they and festivals intended to attract The Superstitious?!
And to keep them throughout life, sincere super superstitious?!

10. Why Religions Consider God, a Sadist?!

https://youtu.be/DQLvDApnr7Y

Really pity, many religions see God, as Sadist the great!
Man tries to please God, by self inflicting pain, in fright!
We see him, does various kinds penances!
We see him, rolls round sacrosanct places!
We see him, tongue, cheeks thrust through with skewer!
We see him, on hooked skin at different places, hover!
We see him, many-many engaged in flagellation!

We see him, whole heartedly enact crucifixion!
We see him, beats own chest, hard, and blood oozes!
We see him, inflict pain on self, and lose senses!
We see him, fast, and fast unto death cases!
We see him, even sacrificing animals, to please You!
Horrible, aloof they are killed, even in mass: not a few!
Do You appreciate all these vices?!
Do You like to see sufferings of masses?!
Are You pleased, proud of!? Nay, pride, what nobility!
Are You a Sadist?! Are You bloodthirsty?!
Heard, that You asked, Man's child as Sacrifice,
Enjoyed All's, agony: when felt suffice,
Restored it and returned it, to save face!
Though, You different, the same tale surface!
Whatever by name they call You, there's one thing
Common: to You, Man's sufferings, plaything!
Humph! So-called saviour of humanity
It's alarming to see You bloodthirsty!
Are we fools to believe, God a Sadist,
Cheat, Rogue, Wretch, Envious, Partisan, Most –
Bloodthirsty, Flattery Addict: even
If Religions preach so, it’s uneven!

A COMMON SCRIPT FOR ALL THE LANGUAGES OF THE WORLD! A NEW CONCEPT!!

Besides own script, a common script for all the languages of the world is desirable to create unity in diversity of the whole world!

BHARATHI is a script free for ALL. Languages without script can adopt it free. Unlike other scripts, the peculiarity of BHARATHI is that any number of new letters can be created from the existing letters, by just adding diacritics to the existing letters, to suit the necessity of any language, to represent any spoken voice which other languages do not have! At present itself, BHARATHI has 61 letters (besides compound letters) to represent the spoken voices!

BHARATHI is the only script in this world which has no separate icons to represent the numerals!

There are a lot of other peculiarities too for BHARATHI script which no other scripts in the world do have!

11. A COMMON SCRIPT
FOR ALL LANGUAGES OF THE WORLD!

https://youtu.be/BDtqu25FDJo

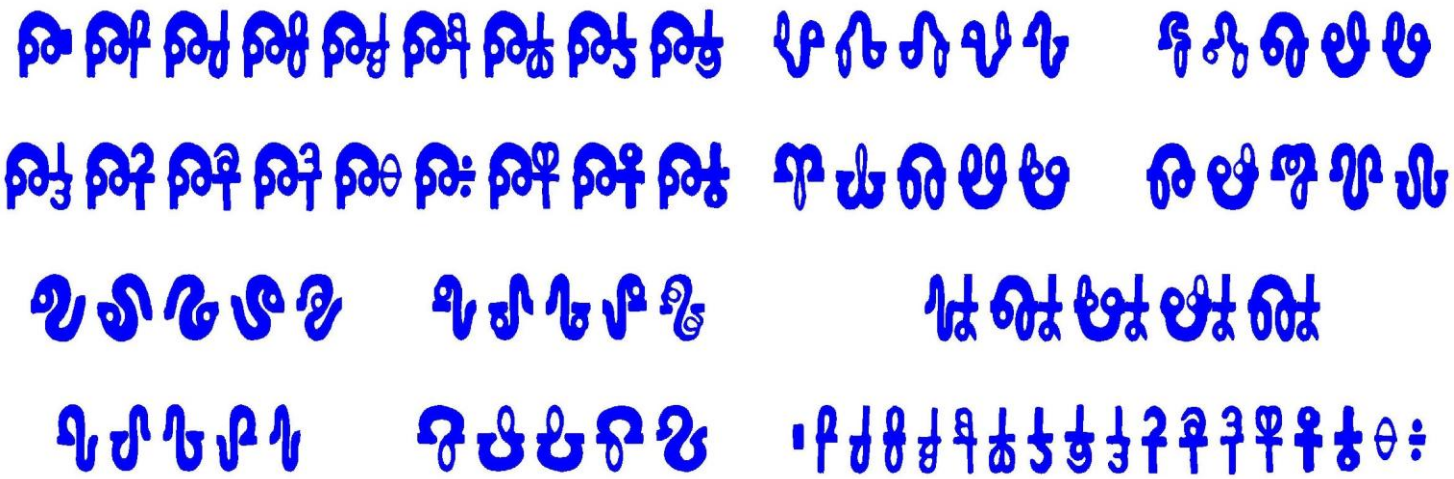
If there is an assertion raised that the format of BHARATHI 1994 is entirely different, is excelling, from all the scripts ever born in the world till date, there is no place even for an iota of exaggeration! Though it was first invented as common script for all Indian Languages; because of its tremendous possibilities such as its flexibility to accommodate any spoken sound in any language all around the world, it is found to possess the potential enough to transform itself into an International Language Script!!

1. **BHARATHI 1994** is the only script in the word, having the composition of hooks at left and right sides of their hips, in order to join one another, letters and symbols (diacritics) in words!
2. If ever, a script came into existence in the world, in which all the letters of words could be written from beginning to end continuously without even a little break, it is none other than **BHARATHI 1994**!
3. There is only a single one script in this world, in which the numerals are not to be learnt separately. It is **BHARATHI 1994**! In the world, which script, expect **BHARATHI 1994**, do have the property of turning into numerals, the symbols (diacritics) that are used for giving vowel sound effects to letters when they stand alone, taking themselves the place of numerals?!
4. As a script without any compound letter at all, **BHARATHI 1994** stands separate! All compound letters are formed in **BHARATHI 1994**!
5. **BHARATHI 1994** is the only script today in the world, having separate, separate letters for the greatest number of sounds pronounced, other than compound letters! It has already letters for 68 vocal sounds. Any number of letters according to the need can be formed in **BHARATHI 1994**!
6. **BHARATHI 1994** is the one script that exists in the world, which in its infancy state itself, a Font came into being! (The first and probably the last script, for which a Font is created by the inventor of the script itself!)
7. It is doubtless that **BHARATHI 1994** occupies the first place among the very rare elegant scripts, without including a single letter having a dot or line, above or below, left or right!
8. In preference to other language scripts, it is the peculiarity of **BHARATHI 1994**, that not even for a single letter, no fleck or streak (diacritics), is to be put in, before it!
9. For **BHARATHI 1994**, in order to double letters, there is no necessity to rely upon the method used for creating compound letters! It is made possible by using a special diacritic!

10. It is really a point to be mentioned preferentially, that not even a single letter of **BHARATHI 1994**, do have portions projecting upwards or downwards from the normal level!
11. There is not even an iota of doubt for the fact, that for all reasons, it is a praise-worthy thing, all letters of the script **BHARATHI 1994** are of the same height!
12. The written script folk of **BHATATHI 1994** really prepare a banquet that gives cooling effect to the eyes!

Any language of the world according to spoken sound can be written using

BHARATHI SCRIPT



Download Font Free From The Site:

bharathibyramchand.wordpress.com

Besides the scripts they use, everyone can learn BHARATHI 1994 as a hobby! Requesting them, that they should also do so, send this article, to relatives and friends! Let sending messages to all of them, be typed in the script of BHARATHI 1994! Let the process happen to continue like a chain!

For getting letter in BHARATHI script, representing a voice like that:

as **'a'** in 'at', type lower case '**a**' and '**s**' on the keyboard.
as **'a'** in 'art', type lower case '**a**' and '**0**' the numeral on the keyboard.

Given below, this first symbol is the body of the vowels. It has no sound attributed to it. The rest are the diacritics (for convenience called TAILS), that transforms the body into the particular vowel, giving it sound as given beneath the diacritics.

Body	A	AA	E	EE	U	UU	EERO	YEA	YEAA	AY	O	OO	OW	AM	A:

(The continuity of the arrangement of English letters, numerals and punctuation marks on the keyboard, is as far as possible followed in allotting the key to the alphabet of BHARATHI!)

ൿ	E[	(IL) as ‘ll’ in ‘full’

When the first vowel is followed by another letter, it is not necessary to add the tail (ാ) to the body making the vowel. Automatically, it emerges there! കൊ

Now let us have a look at the Consonants!

{[ക(KA), ഖ(KHA), ഗ(GA), ഘ(GHA), ങ(NGA)] is considered as a group. Similarly, other groups too.}

In most cases:

When the first letter, of a group is turned upside down, we get the next letter of the same group: ഖ

When this new letter is turned left to right, we get the next letter of the same group: ഗ

When we again turn the newly formed letter upside down, we get the next letter of the same group: ഘ

The last letter of the group has a slight change in its structure. ങ

(Aspirated means, the sound represented in English by the letter "h", in words such as "house".)

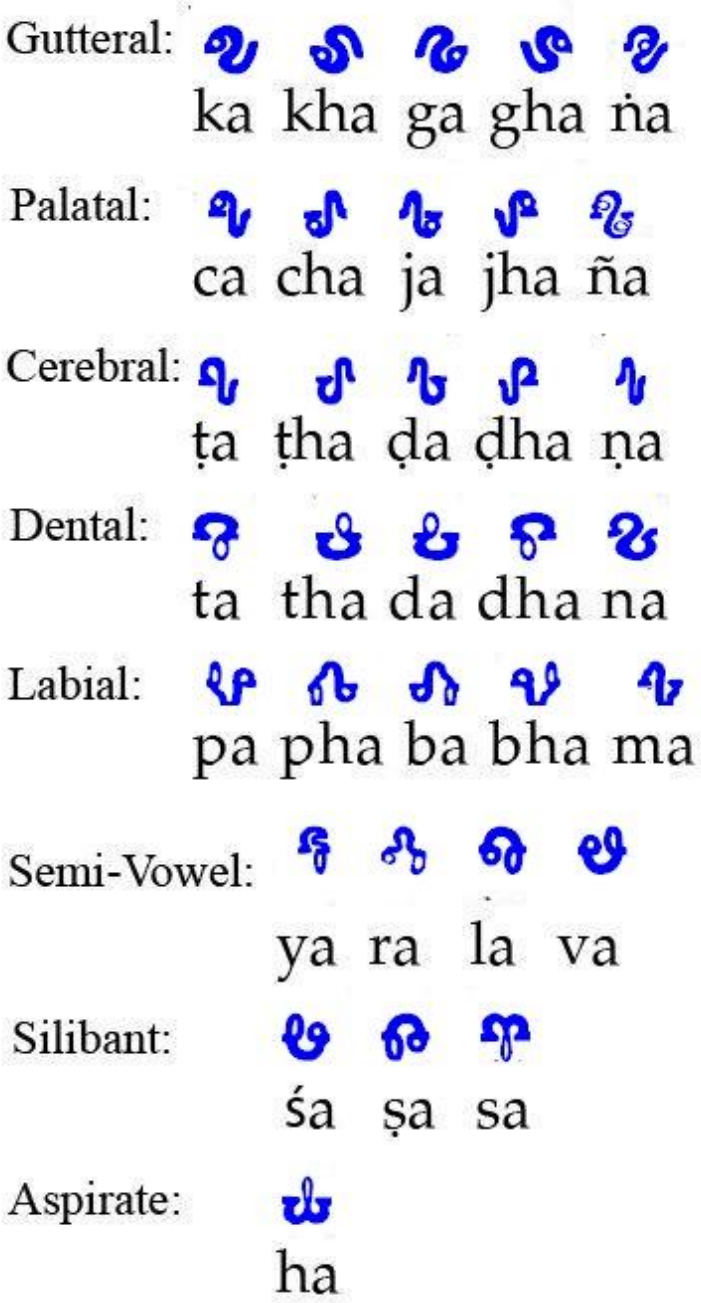
For getting letter in BHARATHI script, representing a voice like that:

as **'c'** in '**c**up', type lower case 'g', on the keyboard.

as (**kha**), the same ASPIRATED as in 'MU**KHA**M' the Sanskrit word for 'Face', type lower case 'h' on the keyboard.

as **'bu'** in '**bu**t', type UPPER CASE 'A', on the keyboard.

Consonants have the first vowel 'a' already added to it!



Any desired-vocal-sound-representing-letter can be formed by adding the symbol to the consonants. Already, the last five letters shown in the table of consonants are made from the corresponding consonants having near-sound-similarity! There are 45 consonants left, which too can be transformed into new letters, if necessary. World languages can choose them according to their needs. If there are new vowel

sounds, to represent them, new letters too can be formed, by adding ಽ or ೱ to the body of the vowels. Even combination of the diacritics may be adopted, if needed. Because of the peculiarity, speciality, viability, multiplicity, beauty and the possibility of forming a letter to represent any spoken-sound, all over the world, in these ways, it can even be used as a common script for all world languages!

ADDING VOWELS TO CONSONANTS

KA	KAA	KI	KII	KU	KUU	KERO	KE
ವ	ವಾ	ವಿ	ವೀ	ವು	ವೂ	ವೊ	ವೆ
KEE	KAI	KO	KOO	KOW	KA:M	KA:	
ವೇ	ವೈ	ವೋ	ವೌ	ವೌ	ವಂ	ವಃ	

Similarly all other consonants too may be transformed

Already, the consonants are having the first vowel **'A'** attached to it. From, **'AA'** onwards, to get the consonants having the other vowels attached to it, we have to add the same symbols with which we made the vowels, by adding them to the Body of vowels. When we add the symbol, the consonant will fist shed its **'A'**-vowel-effect and then accept the new role as shown here.

MAKING COMPOUND LETTERS

There are no compound letters in **BHARATHI!** All compound letters are formed. It was earlier mentioned that the consonants have the first vowel **(A)** already added to it. To get a compound letter, first we have to shed the vowel-effect of the first letter, by adding this ್ compound letter formation symbol. For example, when this ್ symbol is added to the letter ವ**(KA)**, it sheds its vowel effect**(A)** and becomes ವ್**(KE:).** Now, for example, let us add ಥ**(THA)**as the next letter, it becomes the compound letter ವ್ಥ**(KTHA).** Similarly any compound letter can be formed.

DOUBLING A CONSONANT LETTER

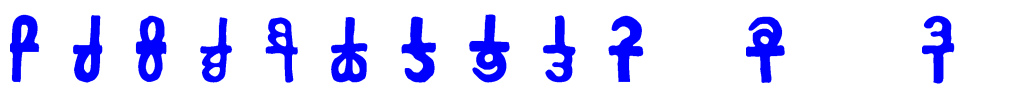
For doubling a letter we need not do as we make compound letters. Just by adding the symbol ೣ for doubling, we get it easily! For example to double the letter ಞ**(NJA),** the doubling effect can be obtained by just adding this ೣ symbol to it. Then it becomes the double letter ಞೣ**(NJNJA).**

[By the way, remember, that letters of words ending with vowel-less sound, also may be made like this ಬ್ಬುಕ್**(BOOK).** It was mentioned before the beginning of consonants, that the consonants are already having the first vowel **(A)** attached it. This is ಬ**(BA),** when this ಽ symbol

is added to it, it becomes ﷺ**(BU).** This is ﷺ**(KA).** When this ﷺ symbol is added to it, it becomes ﷺ **(KKA).** When they are added they become ﷺ**(BUKKA).** But the end letter should not have vowel effect. So to shed the vowel effect add this ﷺ symbol to it and make it ﷺ**(BOOK).]** It may seem a bit cumbersome, but the action is easy and soon becomes involuntary!

NUMERALS

These selected diacritics turn numerals when they themselves stand alone



0 1 2 3 4 5 6 7 8 9 1000 10,000

The numerals on the keyboard give numerals in **BHARATHI** too. Numerals remain numerals as long as they themselves standalone, but when they in combination stand with body of vowels, and consonants, they give the corresponding letters. No numerical value is given to

these diacritics.

DATES CAN BE WRITTEN LIKE THIS:

12. LIFE, SOUL, SPIRIT!

https://youtu.be/HC7ezlKDeAM

As many think, as many religions preach, as many blindly believe
There never ever pervade anywhere anything, any SPIRIT that thrive!
There is no LIFE or SOUL as such that comes and enter body at birth
Or that leaves, flies away from body when dies! Really that's the truth!
It's not true what superstitions' wonders' thunders tell under their spell!
It's just a STATE, a state when all organs of all creatures function well
In way same as parts of machines function properly for performance!
If all parts of car function well it will run: otherwise activity stops thence!
In case if parts some fail: in accordance with it emerges hitch in its race!
(Nature's scamps: infinitely thrilling aren't they!? They are what we face!)
Didn't the phenomenon, doctors are able to keep a Man alive for some
More time or even days more, without letting him die at real lawful time
He was expected to die, with help of life saving machines different kinds,
Prove doubtlessly?! At the moment, machines withdrawn: Man's life ends!
Removing and replacing damaged organs 'f Man moribund because of them:

Patchwork with organs good harvested from Man brain dead: bring them
Back again to survival from death imminent, is because BEING ALIVE is just
A state of affairs, in way same as repairing car with spare parts new, in gist!
SOULS are not at all wandering in space as speculated by religions many:
Waiting for opportunity anew! Don't leave behind an iota of doubt any!
Think another way too: when foetus inherits life that exists in egg and sperm
Where do the need arise, to import one more life from any external firm?!

13. RELIGIONS DEAD!

https://youtu.be/D7TUVl7p9XU

At present there are roughly 4,200 religions in the world!
In due course, Religions too die! Here are a few to mention!
Minoan Religion, Mithraism, Manichaeism, Atenism, Ashurism, Canaanite Religion, Tengriism, Paganism, Olmec Religion, Vedism;
numerous are they! But, history could collect reports, only of a few:
latest casualty being Vedism, details are known. Vedas means 'knowledge'.

It was popular, from one thousand five hundred BCA to five hundred BCA,
as the religion of the ancient Indo-Aryans! Indra was the Supreme God of
Vedism! Agni(Fire) and Surya(Sun) too were prominent! There were,
thirty three Gods(Devas), in Vedism. Details about them too, are available.
Rituals such as, animal sacrifices and chanting, were common then!
Rig Veda, Sama Veda, Yajur veda and Atharva Veda belongs to Vedism!

When Vedism died, Hinduism, then in its developmental-stage, usurped
the Vedas! Allowed Indra, to change religion, from Vedism to Hinduism:
But on condition, that he should be a non-worshiped God: Devendran!
(Aren't we famous in coining names super, to fit into, the new situation!
'Rajapramukh', 'Deputy Prime-Minister', 'Deputy Chief-Minister', so on!)
Nobody knows anything, what happened to the Gods of Religions dead!

As living religions die, new religions may crop up and come to life!
Retain superstitious believers, ever superstitious: is the aim of Religions'
Exploiters, those who earn a living, fame or position, in Religion's name!
They will become ready, even to make changes in the curriculum and
Introduce their Religion, as a subject to be taught in educational institutions!
If the Ruler happens, religious head too, then it will be a definite inclusion!

14. CREATED
OR EXISTED?!

https://youtu.be/7p5kOGyFS-c

If God created ALL in universe,
Sun, moon, plants, planets, earth, animals, stars
Who-else, can be responsible, for what
Happens therein, good or bad, no secret!
If a Man turns criminal treacherous
Murderer, robber, rapist lecherous
Isn't it as the Man's thinking, His emotions,
Go awry, without having restrictions?!
And it's so, because God gave them a brain -
That works in that direction, no constrain!
Then what right has He to test or to punish,
The victim of His own fault!? And try tarnish?!
God can't escape saying, "I knew not, Man -
Would disobey!" God is omniscient, not Man!
God, if of ability great, could surely,
With each and every individual, directly -
He could deal matters simultaneously!
Isn't God's inability to do so, very clearly -
Shown by presence of broker, in between
God and Man to communicate between!?
If Man went out of God's control, no nods,
God's bankruptcy the villain, gods not Gods!
Are, All Handicapped! Psychopaths! Sick-Men!
The result of God playing the dice, then!?
IN MAN'S CREATION, WAS HE PLAYING DICE?!
IS DICE PLAYING APT TO GOD? Please think twice,
Intellectuals, philosophers, thinkers,
Wizards of Religions, God-mongers!
The Blind, find it easy to befriend, highlighted -
Faiths; beliefs without proof-propagated,
By Believers blind or Cheaters rated!
They say the universe God created!
They, mute us, how God originated,
Ascribe sin, reason, answer they have nil!
Some would say, God was there - against your will!
Why, for those who could believe God existed:
Can't believe, universe with all in it too, existed?!

(((((0)))))

15. WRITER'S 'DEVIL'

https://youtu.be/D3Z609GHhv4

Books Religious do say God created Universe!
So, question arises about God's presence!
Where was He, He can't be inside Universe!
He has to be somewhere outside the Universe!
But, fact Universe is endless, makes a reverse!
Don't get excited, if one believes the converse!
Where can there be a place outside the infinity?!
So, concept doesn't stand, isn't it against reality?!
Exposed stands cunning hidden cheating mentality!
It may take time to get proved, the living absurdity!

Poor God had had to spend in darkness bitter, all the time,
Before He created light, even without Sun, says the Hymn!
Wonder, isn't it, the then too there existed means to measure even
Duration of Day! But, there can't be light without a source, as proven!
If God made 'SUN', only on the 'FOURTH DAY'
How 'MORNING' and 'EVENING' from the 'FRST DAY'?!
Day, night, result or sun's rays on earth's movement!
But, God didn't bless them with that involvement!
'GRASS, FRUIT YIELDING TREE', God brought forth vegetation!
Indeed wonder, photosynthesis even before 'SUN's creation!
God is great! Plant life! Even without necessary sun!
In the beginning who created God?! Shh.....SIN! Shun!

Under the sea, the DEMON hid the world,
God Incarnated into Pig very big and bold,
Killed the DEMON and retrieved the 'gold'!
Author of The BOOK very sacred, told!
But, sea itself being part of world
How can one, under sea keep it and hold?!
Oh! Wonder! You whole your mouth swallowing
The whole, into its own part submerging!

In charity, earned the dwarf God, three feet -
Space, from King famous: cheating came to light
When Dwarf grew to size big and measured whole
Of the world in one foot, second foot's sole
On heaven, and finding no place to keep
Third, King bowed his head for next leap!
Dwarf giant trampled King to Nether world!

Question great arises from the story told!
Where was king?! In heaven, hell or earth!
If, King was in heaven or earth, isn't it worth
Think, already Dwarf Giant's leg kept on King's head?!
Then to keep His next step, where is left the head?!
When King has been already trampled to PAATHAMLAM,
How Giant could again trample him to PAATHAALAM?!

16. WHO IS RESPONSIBLE FOR MAN'S MISBEHAVIOURS?!

'God created Man!' All religions do say in unison!
If God created Man, Man's brain too His creation!
Why in same breath they say, "God created
Man" "Man disobeyed God!"Orchestrated!?
Doesn't it mean, God knew never, how in future
Man would behave, or God erred in Man's feature?!
For, God made brain his, gave him thinking power!
Responsible who, for Man's behaviour?
If God's foresight nil theory supposed
God's creations' imperfections exposed!
Or else, God a sadist, cheater, admit;
Knowingly made Man disobeying pit
Rubbish, created evil nil then, tempted,
Punished and enjoys Man's pains unabated!
Haven't Man suffered enough for disobeying?!
Generations endless gone enduring
Yet, not in sight God's revenge subsiding!
Heard only of Man's vengeance continuing
Is God too so, a too-mean-minded creature!?

If, the first Two, only punished, the feature
Would have had, meaning, justification.
For parents' fault, why the crucifixion -
Of children, innocent! Anachronism!
(Pity, none, till knew God's egotism!)
And that too for none of the Two's fault! Shame!
But, God's own creation, defective fame!
Instead, God could have corrected mistake
His own, "LET, MAN'S THOUGHTS EVIL, VANISH: WAKE.....!

Would have done wonders, what would have been world!
One Religion! One Man! Love! Love! ..... Not cold!
Imagine! Violence-less.... Murder-less.....
But! ALAS! Where is that God the end-less?!
When MAN'S deeds are all governed by the brain
The God gave MAN, why do religions strain
To hammer idea of apologetics?!
These are all just, to-fool-the-Man tactics!
To the God, why Man should apologize
If God couldn't succeed to synchronize
God's likes and dislikes with that of Man
While moulding Man's brain like His, which He can!?

17. LESSONS LEARNT, TAUGHT BY COVD19!

https://youtu.be/II936s8y0Y0

Lethal liquor an intoxicant!
Religion: more terrible intoxicant!
Didn't without doubt any: COVID19 teach
Drunkard can live even without liquor?
Didn't COVID19 prove beyond doubt any -
Man can live, even without religion any?
Truth: temples, mosques, churches, pagodas -
And such places of worship are of use nil -
To mankind: cleared without ambiguity any!
An answer single invented by the great Fraud -
As answer to all questions answerless, is God!
But all Gods of all religions could not even save
Man from the clutches of COVID virus the knave!

For those who want to worship God, middle-
Men: like priests, bishops, monks, nuns, mothers,
Sisters, padres, clergies, pastors, preachers, fathers,
Shepherds, THANTHRIES pope, imam, KWADIMUFTI,
AYATHOLLA, MULLA, HASSAN, rabbi, seer, sage, and, and
And.... not at all necessary here, anywhere in this world!
To pray, no need for place separate, home quite sufficient!
Prayer houses attract Superstitious and get the premises flooded!
Festivals too are to attract innocent Man, ignoble weak minded!
Can't the great God who could create universe, single handed
Build a house for self accommodation, without Man funded?

No news at all of any God ever starved, to death: or had
Attack any of disease, for not being able to eat LADDU,
Drink PAYASAM, chew UNNIAPPAM or consume rice:
At places of worship, anytime, anywhere in this world!
No complaint ever had been made by God any, for not lighting
Oil lamps or candle sticks or for not providing, fumes igniting
Spice, aromatic in the urn with cinder bright, or camphor smoke!
No report of Goddess any; wasn't able to sleep, for not hearing
Sounds of shots! (Habit formed after Man invented gunpowder!)
Not known of any God having dissatisfaction for Man not bowing
Venerating or revering by his presence at places of worship, among!

Nature's beauty will surely be enhanced manifold if flowers
Are not nipped destroyed Allow it to bloom in its own flavours!
If lighting of bonfire completely stopped the atmospheric air -
Will get, more pollution free! A boon to all living creatures!
Not only waters of rivers, but all waters turn polluted because
Of Man the fool's deeds: will get water purified, if superstitions end!

Man religious superstitious, Man finding earnings in religion's name,
And Man who play politics in shadow of religion and amass fame
Wealth and position: will do everything that could be done to halt
The growth of science! Academic curriculums will be changed, to fit -
It to enable the keeping up fellows superstitious, superstitious ever

18. A PREDICTION!

https://youtu.be/91PodGhiasU

God knows everything, the future too, He is omniscient!
God can do and or control anything, He is omnipotent!
God is everywhere, can hear everyone, He is omnipresent!
God sees deeds of every Man, God knows who is innocent!
God has no partiality, gives preference nil to flattery accent!
Thus goes the conception of God, by all Religions, present!
Every Religion propagates, fight against evil, in all ways!
A fight between good and bad, and good wins always!
But, doubts great exist, how evil came into existence,
As Religions confirm, God created every substance!
So, doubtless; Devil, Satan, Shaitan, Rakshasan, Demon -
Too created by none other than God, as do their sermon!
Were they just created, to fight and kill them, to enhance
Self Prestige: in front of The Man, to show God's presence!

Why, for what purpose did God create what are all bad?!
Can't be an unforeseen error, for God can't err! If so, it's sad!
After creating serpent with brain that could persuade
Couple to eat the fruit, what right God have for crusade?
Why created serpent? How serpent came to know that Man will not die
Even if He ate it, but would become Gods-like, knowing good-and-evil-tie!
Why for what purpose, to solve what problem, was tree with particular
Fruit created and then forbidden eating it! Finds no reason assimilator!
What right God had to curse the serpent? Why was God against
Man gaining knowledge of good and evil? Did His self, stood against?
Why created Rakshasas and Rakshasis, and then took incarnations
One after another, to fight against them, to see their terminations!
Hereditary belief in Religion, by matured mind, now almost over
Man's mind has begun to think of it; as the truths, science discover!
Religions all consider God as a living creature, with ears to hear -
Man's prayers; with eyes to see Man, in ways different, revere!
But commonsense do not permit to believe that a creature can live
For ever, a biological process has its own limitations, as we see alive!
Jiggery-pokery can't win and exist for ever, to keep Man superstitious!
Science will bring out truth of everything, making its presence conspicuous!
Religions many had had died, as Man's intelligence improved increasing!
But, new religions usurped in, succeeding in making Man misconstruing!
Man unaffiliated to Religion any, exploded to above fifteen percent, indicates:
The life of living religions is numbered: the statistics given below predict fates!
